AI-Focused Full-Stack Developer · Product Builder

Full-stack developer based in Japan, focused on building production-ready web apps, AI automations, and SaaS workflows. Founder of 8Agents and RakuSaku, with hands-on experience across frontend, backend APIs, database, integrations, deployment, and operations.

CORE SKILLS

- Next.js
- React
- TypeScript
- Python
- FastAPI
- PostgreSQL
- Docker
- Tailwind CSS
- AI Agents
- LLM Integration
- Telegram Bot API
- Payment/Supplier APIs

SELECTED PROJECTS

8Agents — AI Agent SaaS Platform

8agents.xyz

Tech: Next.js, FastAPI, Python, Docker, PostgreSQL, Redis, Telegram Bot API, AI integrations

- Built a production AI-agent platform that helps users delegate real tasks to specialized AI agents through Telegram.
- Implemented 15+ autonomous agent workflows, multi-provider AI integration, task delegation, and operational monitoring.
- Owned end-to-end product engineering across frontend, backend APIs, database, deployment, and automation workflows.

RakuSaku — Digital Services Marketplace

rakusaku.com

Tech: Next.js, FastAPI, PostgreSQL, payment gateway integration, Digiflazz API, admin workflows

- Built a marketplace for game top-ups and digital services with real commerce workflows.
- Integrated payment and supplier fulfillment flows, including QRIS/e-wallet/bank-transfer style checkout and Digiflazz automation.
- Developed admin and operational features for managing products, orders, and service fulfillment.

WHAT I BRING

- End-to-end product execution from idea to live deployment.
- Practical AI automation and agent workflow experience.
- Strong ownership across UI, API, database, integrations, and ops.
- Minimal, production-minded engineering for small teams.

LANGUAGES

- Indonesian: Native
- Japanese: JLPT N3
- English: Technical reading/writing; spoken English actively improving

TARGET ROLES

- Full-Stack Developer
- AI Automation Engineer
- AI Agent Developer
- Product Engineer
- Next.js + Python/FastAPI Developer

AVAILABILITY

- Open to remote global, Japan, and APAC opportunities.
- Best fit: SaaS, internal tools, automation, and AI-enabled products.
- Timezone: Japan Standard Time (JST).
